

How to add printers:

1. Click the file explorer icon, which is usually located on your task bar.

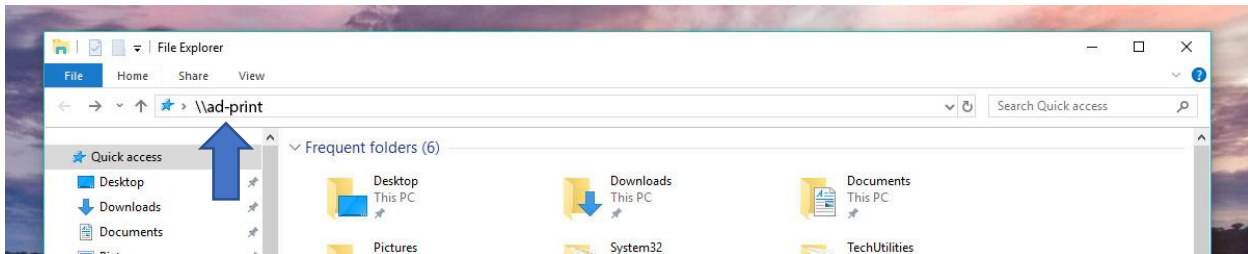

(Win 10)

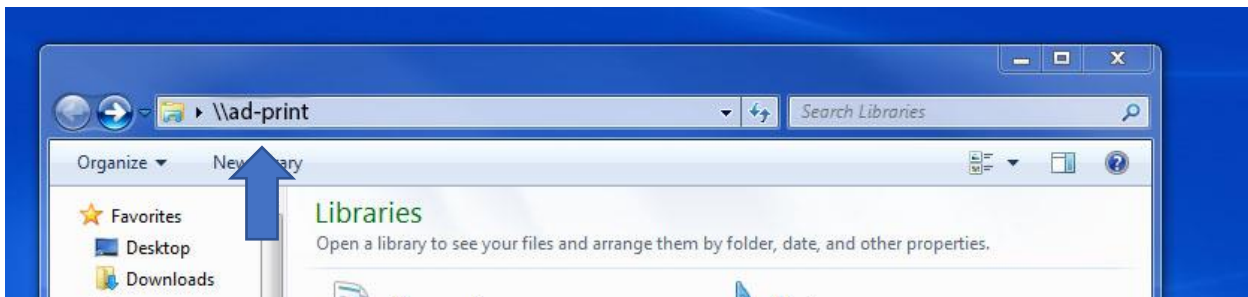

(Win 7)

2. Type `\\ad-print` in the address bar:

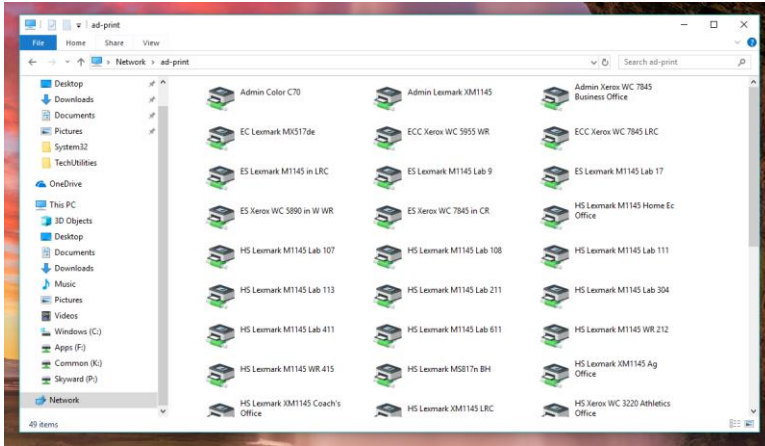

(Windows 10)

(Windows 7)

3. Select the printer you want and double click:

4. The driver will download and install the printer. It may take a few minutes.
