

BECOME A MENTOR

Your presence NOW can change the trajectory of a young life FOREVER

So many students today face unbelievably difficult domestic circumstances and hardship. They lack the coping mechanisms and support systems that help kids thrive. Because they cannot succeed in the classroom, students become hopeless and drop out.

Mentors Care recruits members of the community from Corporate and Small Businesses; Churches; Small Groups, Community Clubs, Chambers of Commerce etc. to serve as mentors to students who are considered to be at risk of not graduating from high school.

Have you ever thought of volunteering for a worthy cause?

Maybe mentorship is the right fit for you. So many children need a positive influence in their life.

Mentors Care Mentors are Fully Qualified, Trained & Equipped to Meet Student Needs

- We match you with a student that has been identified by school administrators as at-risk of not graduating.
- You will mentor a struggling high school student for 1 hour each week over the course of 8 months
- Our 24 Talking Points© will help you instill the confidence, self-discipline, and resilience required of your student to get back on track toward graduation and on to planning a bright future.

Topics of discussion include:

- Grades
- Assignments
- Self-Perception
- Respect for Others
- And more

Many students enrolled in our program are living in poverty, struggling with addiction, have no positive adult role model, are suffering from trauma, are hungry, homeless, pregnant and more. Mentors Care has many community partners for student physical and emotional needs that fall outside of our program's realm of support.

Completed application with a background check is required for all Mentors being considered.

For more information or to request an application to mentor, email Mark.Blakely@mentors.care or call (325) 660-2841
